

AI is everywhere
AI is the future
AI is overhyped
AI is a bubble
AI is the biggest shift since electricity
AI is using too much water
AI is taking over the world
AI is getting out of hand
AI is ruining everything
AI is going to reskill your workforce
AI is replacing your junior staff
AI is making your training obsolete
AI is coming for your job

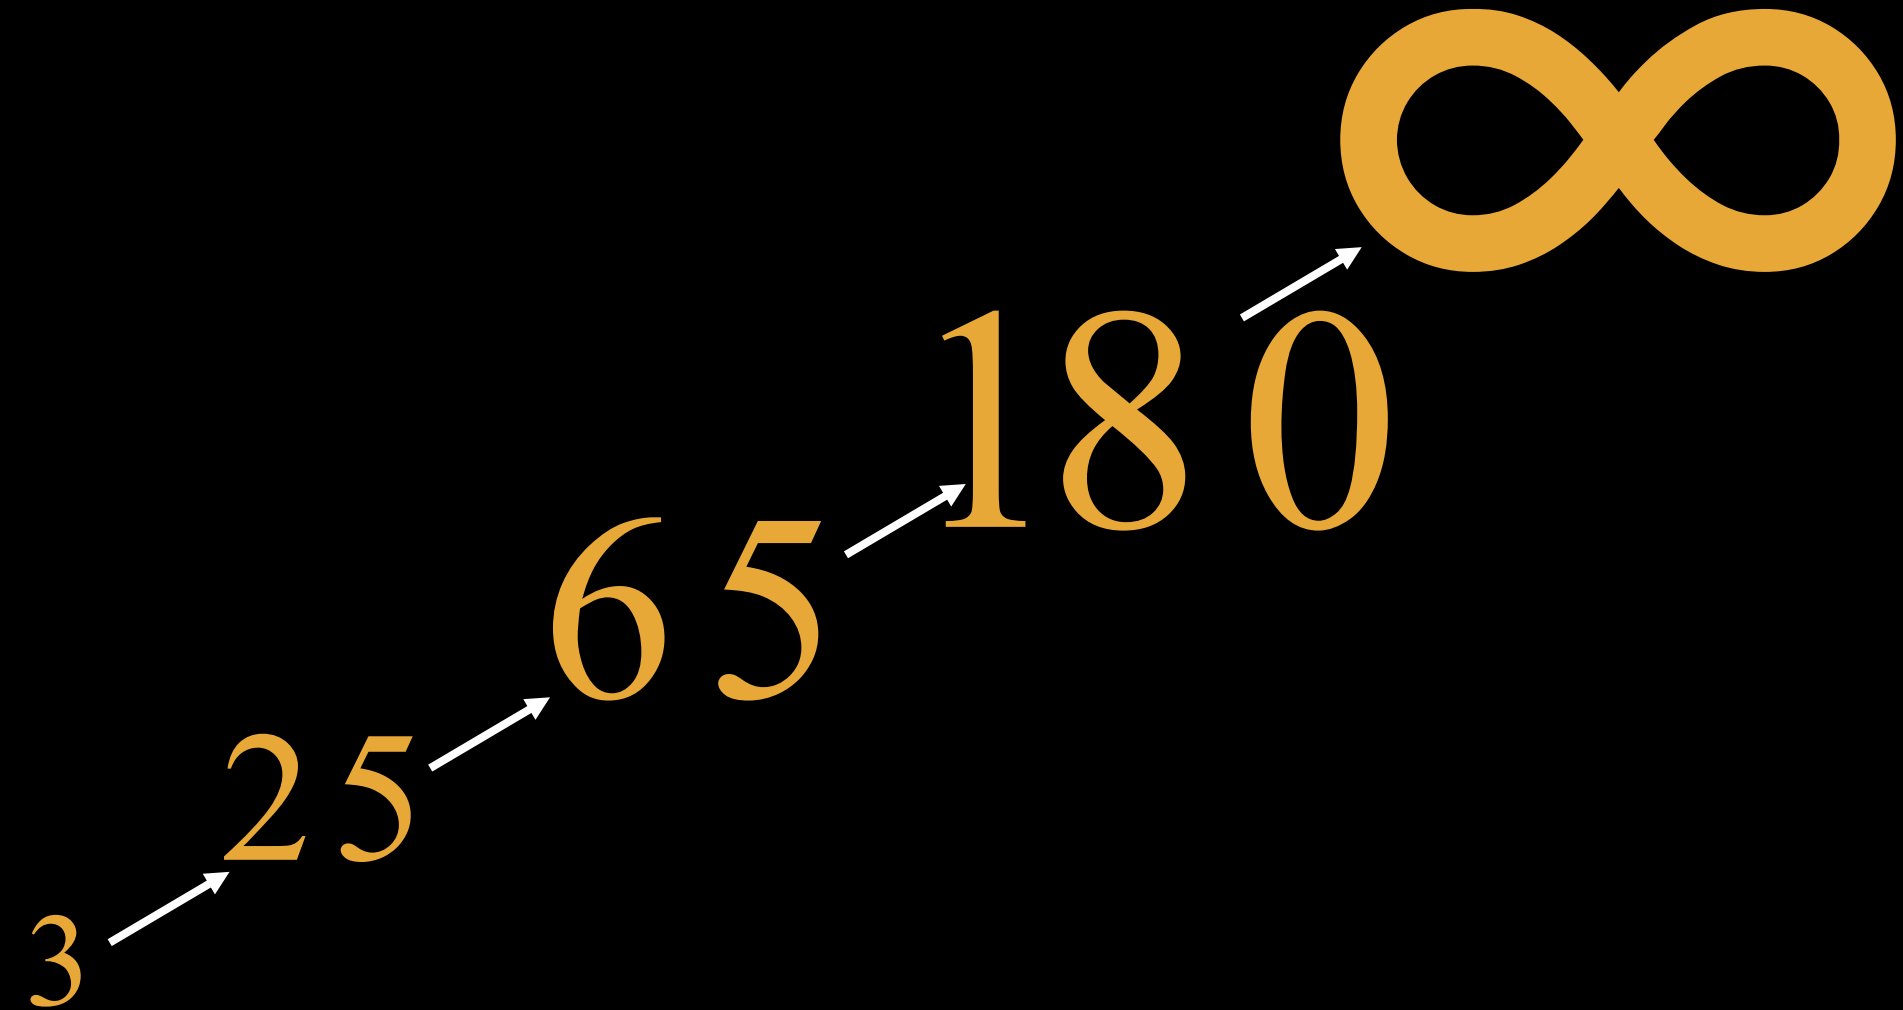

AI FOR GOOD

BUILDING CAPABILITY FOR THE AGE OF AI

RAHIM HIRJI

Author of SuperSkills · Kogan Page, July

*"If knowledge is everywhere, w
is actually worth teaching?"*

89%

54%

*Gallup-Lumina, State of
Higher Education, 2026.*

30%

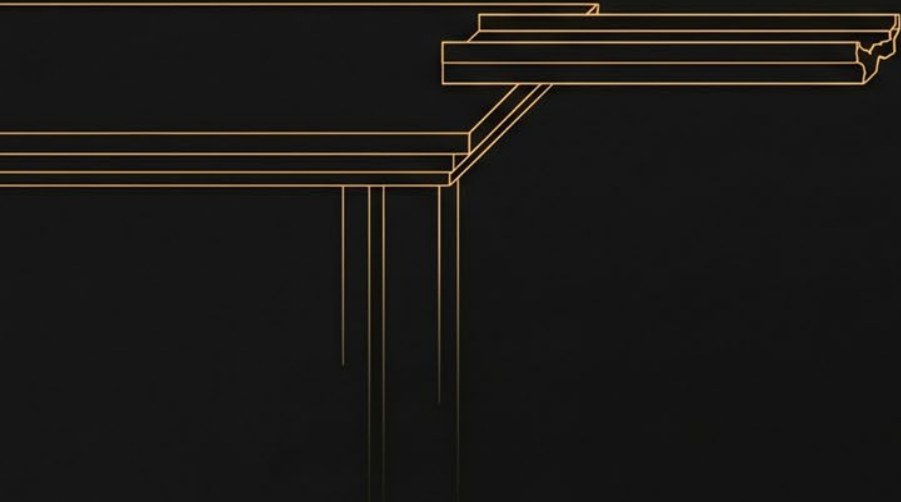

of 2025 graduates found jobs in their field
(down from 41% the year before)

25%

drop in entry-level tech hiring in one year

*Cengage Group,
Graduate
Employability
Report, 2025*

The Broken Bridge

EDUCATION

WORK

Your role = tasks

Tasks = tokens

Tokens have a price

The Harsh Reality of AI Tokenomics

HUMAN

£60

£30 per hour

AI

£0.05

per equivalent task

Summarising a 30 -page report into a one -page brief

*"We didn't fail to teach people the skill
We succeeded at teaching them the wrong way"*

AI didn't change
work. It **reveals** it.

Most of what we
rewarded was **busy**
work .

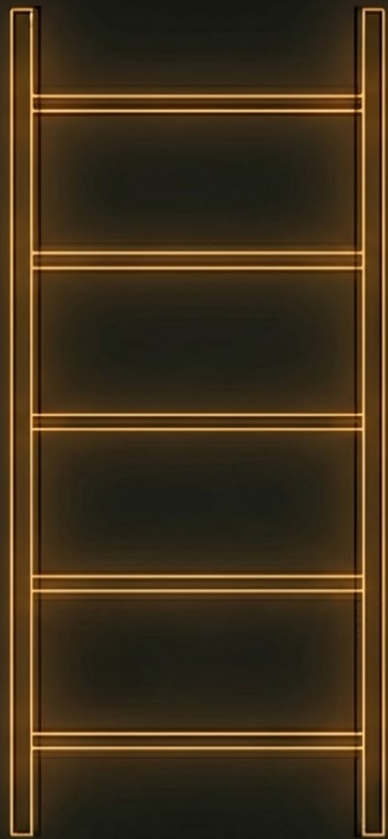

Strip the busy work
away, and you see
who was **building**
capability and who
was only producing.

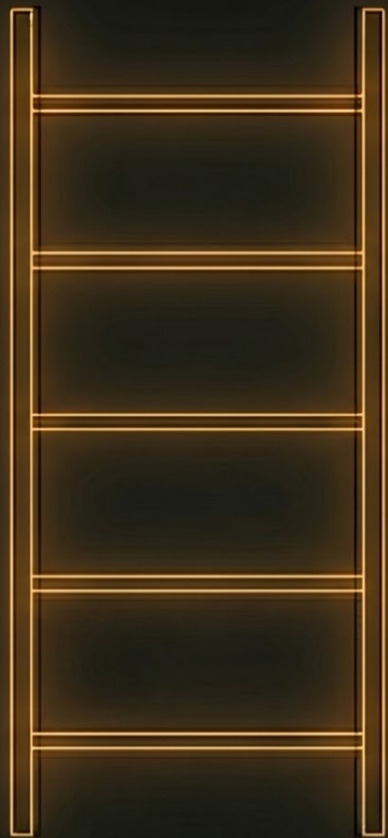

AI didn't create the
gap. It revealed it.
